

	<p><u>1.CNN in handwritten digit recognition</u></p> <p>What is CNN in handwritten digit recognition?</p> <p>i.e. It can be performed using the CNN from Machine Learning.</p> <p>CNN gives the basic structure of my project development.</p>	<p><u>2.CNN-full form</u></p> <p>CNN deffention?</p> <p>i.e. Convolutional neural network</p>	
	<p><u>3.Usage</u></p> <p>Using for the handwritten digit recognition?</p> <p>i.e. It using for MNIST(Modified National Institute of Standards & Technologies)database and compiling.</p>	<p><u>4.Step implement</u></p> <p>What are the step implements?</p> <p>i.e. Create the model...,Train the model...,Evaluate the model...,Preprocess the data...,Create GUI to predict digits.</p>
